

AF ELECTRIC BOX

Technical Data Sheet

Fire Protection for Switches and Electric Devices

DESCRIPTION

In case of fire, recessed electrical and junction boxes are points where it can trigger a fire. Furthermore electrical boxes are reducing the thickness of fire proof barriers. From this the need to give them an effective fire protection.

AF ELECTRIC BOX is a specific fire protection product able to restore calcium silicate or plasterboards fire barriers.

It is made in calcium silicate plates, complete with thermoexpanding materials on the inside in order to seal, in case of fire, the electrical cables passage.

ADVANTAGES

For plasterboard and calcium silicate walls

AF ELECTRIC BOX is applied inside the wall to cover and to protect switches and electric devices.

It is fixed with simple self tapping screws on the boards.
