### USES AND INSTALLATION

**AF Cover Light** are used to maintain the anti-fire protection on fire rated false ceilings after the application of ceiling fixtures.

**AF Cover Light** prevent the passage of flames and insulate against heat. In case of fire the intumescent part expand and seal any gap preventing the fire to spreading further.

Installation is very easy passing the covers, that are flexible, through the false ceiling.

**AF Cover Light** are ready to use and do not require cutting, screwing, assembly etc, or to be adapted to the light textures.

They are very easy to install in pre-existing applications also.
